# Key Information

Due to the hand staining process no colour match guarantee can be provided against the Rosewood foiled outer frame and Darkwood door leaf.

Due to the hand staining process no colour match guarantee can be provided against the Sherwood Oak outer frame and Oakwood door leaf.

Lead is a natural product which when exposed to the environment will undergo certain atmospheric transformations such as oxidization. This is perfectly natural and will eventually settle down to take on a natural weathered lead appearance.

Protect your door from natural thermal distortion by lifting the handle up every time you close the door.

Clean your door with warm soapy water (not washing up liquid) and wipe with a soft cloth. Do NOT use any cleaning products.

**RB** "Resin Bevel" and **TR** "Triple Glazed" designs incorporate their own unique backing glass.

**GT** "Glass Tile" designs incorporate clear backing glass.

**LF** "Lead & Film" and **GB** "Glass Bevels" designs have a choice of backing glass (see backing glass options).

Due to the nature of our products and the limitations of the printing process, no liability can be accepted for the accuracy of the colours or designs depicted, which are intended for guidance only.

The company reserves the right to alter specifications without prior notice.

WB Group terms and conditions apply.

# Step inside for a perfect welcome ...

From the door style to the colour and choice of hardware, we'll help you make a statement.

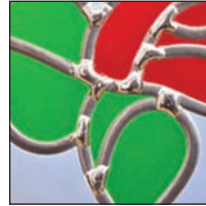

Our composite doors are manufactured utilising only the best components to create stylish, secure, reliable and durable doors.

With the latest CNC machinery and C.A.D software the doors are precision built to exacting standards.

The 44mm composite door is constructed from fibre glass skins for a beautiful timber-like appearance, polyurethane cores for greater thermal efficiency.

The 70mm lead free PVCu outer frame is fully reinforced for added strength and security.

## Glazing Design Notes

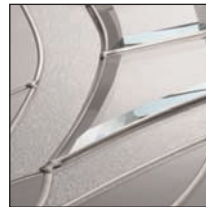

### LF Lead & Film

This process incorporates self adhesive lead and colour film to replicate traditional stained glass designs, all external joints are soldered.

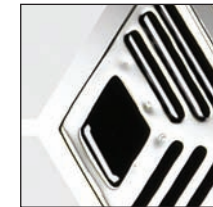

### RB Resin Bevels

Designs which are complex yet delicate, using the latest technology these unique designs cannot be reproduced by any other process.

### GB Glass Bevels

Incorporating hand crafted glass bevels which are applied to the glass and finished with lead work, external joints are soldered.

### GT Glass Tiles

These designs incorporate either kiln fused glass tiles or sparkling clear bevels on a sandblasted effect base glass.

## 5 Standard Colour Range

White

Black

Red

Blue

Green

Darkwood

Oakwood

Select from one of our 7 standard colours for a traditional yet beautiful door finish

## Triple Glazed Unit Make-up

### TR Triple Glazed

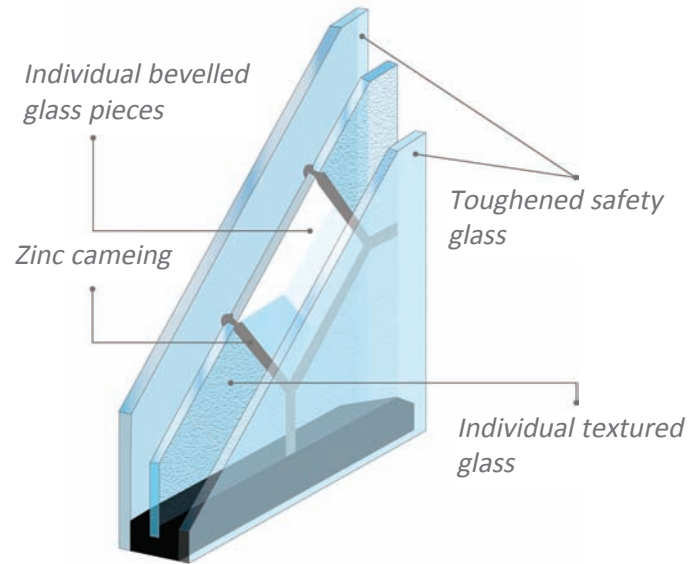

The beautifully hand assembled and soldered centre panes have the benefit of triple glazing preventing oxidization or discolouring of the lead. The easy to clean units also provide superior heat and sound insulation.

### N.B.

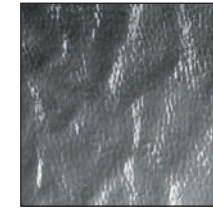

“Resin Bevel” and “Triple Glazed” designs incorporate their own unique backing glass.

“Glass Tile” designs incorporate clear backing glass.

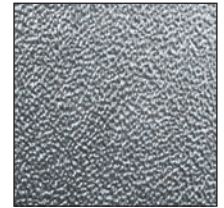

“Lead & Film” and “Glass Bevels” designs have a choice of backing glass (see backing glass options).

# Hardware

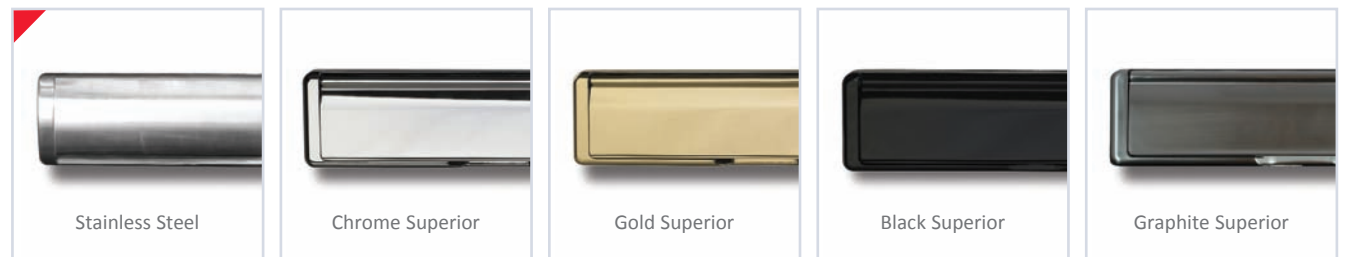

7

## Handles

## Letterplates

## Hinges

 **Stainless steel** hardware comes with a comprehensive anti-corrosion guarantee

## Knockers

## Contemporary Hardware

If you upgrade to Secured by Design specification the door will carry an official security label near the bottom hinge of the door. Do not accept anything other than a genuine Secured by Design Virtuoso composite door.

Excited by all the features in our brochure...?

You won't get all of these benefits on any other door but a Virtuoso door. With all these high quality features we offer, it's important to know you've got the real thing.

We provide an easy way to check your door is an authentic Virtuoso composite door. All of our doors carry an official label near the bottom hinge of the door. Do not accept anything but a genuine Virtuoso composite door.

# Secured by Design

Inform your installer if you wish to upgrade

## WHY UPGRADE

Secured by design (SBD) is a flagship UK police initiative to help 'design out' crime through the use of high-quality innovative products and processes.

Secured by Design

Police Preferred Specification

Statistics show that when it comes to burglaries in the UK, front doors are the main source of access. Therefore, they need to be made as secure as possible.

In order to achieve Secured by Design status, our composite door has been rigorously tested and must adhere to the organisation's strict standards.

Our SBD upgrade meets the national standard for safer homes and is also recognised by many insurance companies.

## HANDLE

Solid and robust the handle acts as a cylinder guard, preventing attack on the cylinder by an intruder.

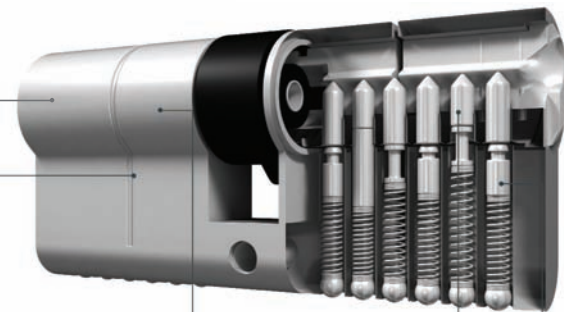

## LOCK

The upgraded door lock has multiple steel locking points for premium security.

## CYLINDER

Anti-bump, anti-lift & anti drill, our door cylinder will stand up to any intruder.

SACRIFICIAL CUT

ANTI BUMP

ANTI DRILL

ANTI PICK

When you upgrade to Secured by Design specification your door will carry an official security label near the bottom hinge of the door.
